Dear Applicant:

Thank you for your interest in teaching for the Pierce College Extension Community Education program. Extension classes are offered on a not-for-credit basis in addition to Pierce College’s instructional program and cannot be academic equivalents of regular credit classes.

I would also like to make you aware of the fact that the California Education Code STRICTLY prohibits business solicitation in the classroom. Instructors are asked not to distribute business cards or solicit business during class, and no items may be sold during class or in classroom facilities unless approved prior to the class by the Extension Director. We encourage you to enhance your career and business by teaching, but the integrity of the teacher-student relationship must always be maintained. If you feel that you cannot comply with these regulations, please do not submit a proposal.

Upon receipt, proposals for classes relating to a particular discipline are submitted to the appropriate department chairperson for review before being considered by the Extension program. You will be contacted following that process.

Please complete the Instructor Application and Course Proposal, and either fax or mail to the above address for consideration. You may include additional pages if necessary.

Again, thank you for your interest. I look forward to your proposal.

Cordially,

Cindy K. Chang, Director

(see Instructor Application and Course Proposal below)
